There is only one word for Ventum Air, Professional. Thank you for everything. I have learnt so much during my training and I believe I am a better pilot in every way now than before. I did the IR+CPL training in Ventum and I am very happy with everything. Every instructor is giving you more in flying and they want you to really understand the things, not just to get you through the program. Once again thank you and I will recommend this school to anybody who wants to learn to fly at the professional level.

Djiekujje
Thanks
Kiitos
